REPORT OF THE LIBRARIAN

To the Board of Trustees of the Wolfeboro Town Library:

Gentlemen:

The report of the librarian for the year ending February 1, 1933, is hereby presented.

The past year has been the busiest one in the history of the library, with a circulation of 29,903 books and magazines. This is a gain of 2,140 over any previous year. Three hundred and thirty new borrower's cards were issued.

Four hundred and fifteen new books have been accessioned. Of these, 95 were contributed.

Special mention should be made of gifts from Mrs. A. W. Eaton, Mrs. Clara Olney Yorke, and Mrs. J. W. Sanford. A local reading circle, after the winter was over, gave to the library nine of the best books of the year.

As in previous years, we are indebted to Mrs. Jenkinson and Mrs. Phillip Smith for gifts of money for new books.

During these days of enforced idleness for some, new patrons are coming to us. We are trying to meet their demands in our choice of books.

Perhaps a word in regard to fines is timely. It has never been the policy of the library to work for fines. Books are loaned for a definite time, subject to a fine if not returned on or before that date. If wanted longer, patrons are encouraged to have books renewed. All books, excepting recent fiction, or other works of a popular nature may be renewed once or even twice, unless otherwise demanded.

As may be seen from the annual accounts rendered, all money from fines is used for the library.

The library room, which seemed so spacious in the early days, is now inadequate for present demands. A study room is needed for the students, and a quiet reading room for adults. Also, a special entrance for the

younger school children. There is need for more stack room.

This all would mean a remodeling of the present room, and the building of a stack room, or the addition of second story stacks.

The librarian would express appreciation of the splendid support which she has received from patrons and trustees; and also thank those who are helping to build up in our midst a strong library.

Respectfully submitted,

ELIZABETH BREWSTER,

Librarian.

The above financial report falls far short of portraying the actual accomplishments of our Nursing Service. During the period covered by this report, the government has turned over to the National Red Cross

85 million bushels of wheat and 500 thousand bales of cotton to be properly milled and manufactured, and distributed to the "needy and distressed." Wolfeboro Chapter has participated in this distribution. It has already received nearly 1,500 bags of flour, 1,200 yards of various kinds of cotton piece goods, 25 dozen ready-to-wear garments and 12 dozen sweaters. These have to be shared with our branches at Tuftonboro and Wakefield. Most of these supplies have already been given out where most needed, along with a large amount of second hand clothing generously contributed by our public spirited citizens. This has thrown a considerable burden on the Chapter officers, and especially on our Nurse. She has given unselfishly of her time and strength in visiting, investigating and relieving needy cases—never neglecting her nursing duties—but bringing comfort and cheer into very many homes. In this she has had the whole-hearted support of the Selectmen and of every citizen who has been asked to assist. This attitude of the people has been an inspiration to the nurse and to the Chapter officers, and has materially helped them to carry on. Who shall say that our "hard times" may not be a blessing in disguise—since they reveal so many unselfish traits that might otherwise remain hidden!

The Chapter is truly grateful for the generous co-operation it has received on every hand, and with its continuance, hopes to make this community a still better and happier place in which to live.

Respectfully submitted,

LOTTIE L. RUST,
Treasurer.

REPORT OF HEALTH OFFICER

To the Honorable Board of Selectmen, Town of Wolfeboro:

Gentlemen:

I herewith submit a report of the Health Officer for the year ending January 31, 1933.

In the spring of 1932 about one hundred cases of scarlet fever were reported. These cases were of a mild type with few complications and no deaths. Probably many more cases occurred, cases so mild in type, with a slight sore throat and absence of eruption, that no physician was consulted. The entire state has had many cases of this disease during the year so our community was not unique in this respect. A considerable number of persons who were contacts, particularly the nurses at the Huggins Hospital, were immunized by Scarlet Fever Vaccine. This latter procedure is extremely valuable and successful in its results. The health officer recommends its serious consideration by those who have never had the disease. Although scarlet fever is most common in children up to the age of five years, it is by no means unknown in adults who are apt to have complications and sequelae.

An effort has been made to improve the milk supply of our town. Many samples of milk have been sent to the state laboratory, at least one from each producer. A meeting of milk producers was held in co-operation with a representative of the state board of health. The producers show an earnest desire to sell a clean, wholesome product. None of the dairies are selling milk that is dangerous to the public health. The ideal arrangement for our community would be the operation of a co-operative pasteurizing plant, but the cost is prohibitive and until people demand and are

willing to pay for the more expensive milk it will be necessary to get along with milk of higher bacterial content than is consistent with the best modern practice.

A diphtheria immunization clinic was held in May in co-operation with the school department, Woman's Club, physicians, nurses and health officer. The actual work was done by Dr. W. J. Paul Dye, who, with Miss Vivian Jennings of the Bureau of Maternity, Infancy and Child Welfare of the State Board of Health, immunized 167 children (5 under one year, 83 under eight years, and 79 under twelve years). The health officer recommends that this work be continued because diphtheria is one of the few diseases that can actually be prevented from invading our town.

One case of typhoid was reported during the year, in a person who had been outside the state within the previous month. Nine people were immunized in connection with this case.

The health officer urges co-operation of the citizens in the matter of filling the back bay. During the winter refuse can be placed far from shore and be buried when the ice disappears. Householders are asked to keep their own premises along the bay as clean as possible.

The matter of organized garbage collection has been considered and it is hoped that a plan for a self-sustaining method can be worked out this summer. The dumping of garbage into Lake Winnepesaukee is strictly forbidden by the state board of health and householders should have an opportunity to do their part. The clean-up day this year was moderately successful, with the help of Leslie Chamberlain, Superintendent of Roads. A new dumping ground was opened to the public on Pine Hill Road.

The regulations of the state board of health in line with scientific progress in the matter of fumigation, during and after contagious diseases, have changed tremendously during the last year. The sulphur-burning and incantations of our forefathers appear to be no longer necessary.

The suggestions of the state board of health regarding sewage disposal and prevention of the gross pollution of our lake have been deferred to the future. The actions of our citizens in helping to keep the lake front in a cleanly condition will go far to save the town great expense. The dumping of refuse and sewage into the lake and Smith river will hasten the day when Wolfeboro will have to invest a huge sum in a modern and expensive plant.

It is with genuine satisfaction that I commend the efficient, painstaking, sympathetic and thorough cooperation of Mrs. Susanne Leshane Patten, public health nurse, in promoting the welfare of all our citizens. Her part in our health program is large, indeed.
